QGC awards A\$19.5 million gas fields contract

QGC Pty Limited, developer of the Queensland Curtis LNG Project, has awarded a A\$19.5 million contract to Australian firm Transfield Services for gas field work in the Surat Basin of Queensland.

The five-year contract, which is expected to generate A\$10 million of work in the first year, includes capital works and plant maintenance for the QCLNG Project's gas field operations.

It also includes other services directly related to the project such as fabrication and mechanical, electrical and instrumentation work.

Transfield Services has indicated it intends to use several local contractors under the contract and will permanently relocate personnel to the Chinchilla area to enhance capacity in the region to support the industry.

QGC's parent company, BG Group, will invest US\$15 billion in the QCLNG Project by 2014.

Notes to Editors:

QGC

QGC Pty Limited (ACN: 089 642 553) is a leading Australian coal seam gas explorer and producer focused on supplying gas to domestic and international markets. QGC is establishing one of Australia's largest capital infrastructure projects to turn Queensland's world-class coal seam gas reserves into liquefied natural gas. Queensland Curtis LNG, a priority project for QGC, involves expanding exploration and development in southern and central Queensland and transporting gas through a 540km underground pipeline network to Curtis Island near Gladstone where it will be liquefied.
